Former 'Roughneck' In Oil Fields Now Heads

New \$1,000,000 Co.

New \$1,000,000 Co.

Shraveport, L. May 12.—The fliing of charter papers for the Bull
Rowe Oil company, capital stock
\$1,000,600, which took places here last
week, recalls one of the meet interstring and most picturesque chiaractors in the oil flada.

Howe until a little over a year ago
was a "runghner"—a derrick handin the fleids, working for a small
menthly wage and his beard. He smoceded in getting a Shreveport banker. E. K. Smith, to bank his judgment with capital and secured optiens on what is now some of the
most valuable land in Homer.

The Howe Oil cosporation, which
is a separate company, was amode
the first in the new field, its camp
is gmong the most modern. Rows
is still the idel of the "runginecha".

Refrigerator Satisfaction

In buying a Refrigerator, there are two costs to consider: First cost, and last cost. The way to avoid worry about last cost is to purchase a

McCray Refrigerator

Then the first cost will be wiped out in the saving of food and ice.

THE McCRAY is perfectly insulated and the patented system of construction forces cold air from the ice through the food compartments and back to the ice. This constant circulation of cold air keeps food longer than in any other refrigerator.

See the demonstration of the M'CRAY REFRIGERATORS McCray in our store and observe that matches and salt remain cheapest in the long run. perfectly dry in it.

We can supply you with a Refrigerator to suit your needs. Let us show you our various lines.

Keep Cool

Among the numerous aids for tempering the summer's heat to be found here we mention Water Coolece, Vacuum Bottles, fee Shavers, Ice Picks, Lemon Squeezers, Peerless Ice Cream Freezers and the Auto Ice Cream Freezer, which only requires that the ice be packed around the receptacle with the addition of ice cream salt. It is a wonderful labor saver and worth your investigation.
